Green for ICT and ICT for Green

Workshop Agenda

14:00 – 14:30 Panel presentations

Panelists pitches

14:30 – 15:30 Panelist discussion

Round of discussion with the panelists

15:30 – 16:00 Open floor

Open floor discussion

Next steps of the Green ICT Working Group

Green ICT = Green Field

The Panelists

"Software as a Service through the Cloud: who is responsible for what"
[Vasilios Andrikopoulos](#), University of Groningen (the Netherlands)

"Environmental Impact of Deep Neural Network Training"
[Kawsar Haghshenas](#), University of Groningen (the Netherlands)

"Embedding Sustainability into Third Level Education to meet Sustainable Development Goals"
[Brian Keegan](#), TU Dublin (Ireland)

Chairing: [Marco Aiello](#), University of Stuttgart (Germany)

Green ICT Workshop

Questions

1. Do you think Europe is doing enough for Green ICT?
2. Which policies do we have and which ones do we miss?
3. Is it sufficiently represented in Horizon+ and in the national research agendas?
4. Is the industry aware and committed?
5. Do we need to bring the topic more prominently into education?
6. Awareness of the general public, is it sufficient? How to enhance it?
7. What research agenda items do you consider important?
8. How much can the EU enforce green policies on foreign-owned ICT infrastructure and data centers in particular?
